Counselor Education Faculty

Core Faculty

Isaac Burt, Ph.D., Associate Professor
305-302-1793, iburt@fiu.edu
Research Interests: Social justice for historically marginalized populations; adolescent self-efficacy; culturally sensitive treatments for youth; redefining anger management groups in schools and relationship decision making.

Maureen C. Kenny, Ph.D., NCC
Professor
Clinical Mental Health Counseling Track Coordinator
305-348-3506, kenny@m.fiu.edu
Research Interests: Trauma in children and adult survivors; professional and child abuse reporting; prevention of child sexual abuse; working with Latino families.

Sandra Logan-McKibben, Ph.D., NCC, NCSC, ACS, BC-TMH, Program Director
Clinical Assistant Professor
School Counseling Track Coordinator, CACREP Liaison, CSI Chapter Faculty Advisor
305-348-2097, slogan@fiu.edu
Research/Professional Interests: School counseling supervision; leadership & advocacy; assessment; professional issues in counselor education.

Adriana McEachern, Ph.D.
Interim Department Chair
305-348-3391, mceacher@fiu.edu
Research Interests: Child abuse, sexting, learning disabilities, and cross-cultural issues.

Alena Prikhidko, Ph.D.
Assistant Professor
305-348-6340, aprikhid@fiu.edu
Research/Professional Interests: emotion regulation, counselors’ professional development, intensive parenting, and violence prevention.

Valerie E. Dixon Russell, Ph.D., CRC, LMHC (QS), PVE
Clinical Associate Professor
Rehabilitation Counseling Track Coordinator, Clinical Coordinator
Exit Exam Coordinator, SARCA Advisor
305-348-3865, verussel@fiu.edu
Research/Professional Interests: Counseling interventions for underrepresented populations (offenders, persons w/disabilities, minorities); counseling supervision and staff development/training for counseling practitioners.

Program Address
Counselor Education Program at Florida International University

Introduction

This manual provides information about field experiences in the Counselor Education Program, located in the Department of Leadership and Professional Studies, School of Education and Human Development, Florida International University and is a supplement to the Student Handbook for Counselor Education Programs. Field experiences consist of the practicum, internship, and practicum/internship supervision.

Field experiences are a part of all tracks of the Counselor Education Program, including Clinical Mental Health Counseling, School Counseling, and Rehabilitation Counseling at the Master’s level. These tracks share common core courses and objectives at all levels, yet each track develops distinct competencies through environmental emphases and field experiences.

It is the student’s responsibility to be aware of the deadlines for application. Students are responsible for reviewing the list of approved sites and contacting them for information and interviews. Any site that is not on the list that the student desires to complete hours at must be approved by the Clinical Coordinator. Be aware that this takes time so students should begin the process early. All students must have their site confirmed prior to the semester they are to begin their field experience. Sites must be approved by the clinical director by the end of the previous term. (e.g. if you apply for the Spring you must have your site approved before the end of the Fall semester.) It is the student’s responsibility to secure a site and inform the clinical director of the site.

Purpose

Field Experiences are designed to provide students with the opportunity to apply and practice the competencies acquired throughout their training program. The field experience courses are judged by the faculty to be the most important preparatory experiences in which students will engage. It is an opportunity to synthesize and apply theoretical knowledge and to enhance and refine students’ counseling and guidance skills. In many instances, the field experiences serve as a stepping-stone for future student employment. The field experiences also provide a link between the schools, community, the University, and the department counseling unit.

Liability Insurance

All students in Clinical Mental Health Counseling and Rehabilitation Counseling must have obtained personal professional liability insurance prior to beginning any practicum or internship experience. Documentation of liability insurance should be kept current; both the Clinical Coordinator and your Faculty Supervisor(s) should have a copy of your current policy. Although not required, it is STRONGLY recommended that all School Counseling students get liability insurance as well.

Liability insurance is available free of charge for students who belong to the American Counseling Association (ACA). Application forms for liability insurance and membership in ACA and ASCA can be found on-line at www.counseling.org and www.schoolcounselor.org

Ethical and Legal Standards

Students must abide by (1) the standards of conduct established by the school district, agency, or other institution in which they have been placed as a practicum or internship student; (2) the Code of Ethics and the Principles of Professional Conduct of the Education Profession in Florida; and, (3) Standards of Ethical Conduct of the American Counseling Association (ACA), the American School Counselors Association (ASCA), and/or the
**American Rehabilitation Counseling Certification (ARCA).** Any incident of unethical behavior should be immediately brought to the attention of the Faculty Supervisor.

**Types of Field Experiences**

There are two types of field experiences, the practicum and the internship. The practicum is designed to help students develop requisite counseling skills and knowledge of the applied setting. The internship provides the student with experience in all aspects of professional functioning applicable to his or her program track.

**The Counseling Practicum**

The practicum precedes the internship and provides for the development of counseling skills under supervision. Initially, the practicum student should be supported by the site supervisor for all counseling modalities (e.g., individual, couples, family, and/or group). Especially at the onset of the practicum experience, practicum students should “sit in” on sessions of experienced counselors (ideally the Site Supervising Counselor) to observe and learn the structure and content of counseling sessions performed at the particular site. At no time should a practicum student be assigned individual clients or sole facilitation of groups until that student has demonstrated competence with clients at the specific site. Competence should be determined through direct observation by the Site Supervising Counselor (and/or other lead counselors) and may include input from the Faculty Supervisor. The hours spent at FIU (or with the FIU faculty member or adjunct) in individual or group supervision for the practicum course are not counted as practicum hours.

**Common Objectives for Practicum Students**

The site should provide opportunities to foster the following:

1. **Communications Skills:** Students will practice and build upon a repertoire of skills such as attending and active listening, reflecting, facilitative responding, differentiating and balancing between affect and cognitive messages, appropriate self-disclosing, confrontation, etc. These communication skills will be adapted to the cultural expectations, age level, and special needs of each client.

2. **Relationship Building Skills:** Students will demonstrate the ability to establish a trusting, open, therapeutic relationship through the establishment and maintenance of the core conditions such as immediacy, congruence, unconditional positive regard and respect, effective levels of empathy, and maintaining focus on the client. Appropriate skills will be chosen to respect the cultural expectations, age level, and special needs of each client.

3. **Problem Solving Skills:** Students will develop and practice effective critical thinking, problem solving and conflict resolution skills in individual and family therapy sessions. The client's autonomy will be respected in the decision making process.

4. **Professional Development:** Students will demonstrate "professionalism" through proper dress, adherence to ACA's, CRC's, or ASCA's Ethical Codes, and respect for the clients' values system, a willingness to work with clients of different races, creeds, color, sex, sexual preference and an absence of prejudicial beliefs and stereotypes.

5. **Personal Growth and Development:** Students will demonstrate an ability to understand and express their personal dynamics in individual and family therapy sessions through self-disclosure, acceptance and reaction to constructive criticism, and calm and persistent courage in facing difficult or crisis situations, and awareness of expectations of self and others.

6. **Conceptualization Skills:** Students will be able to demonstrate conceptualization skills through case analysis (e.g., identifying major issues and concerns, recognizing consistent patterns of behavior, providing diagnosis using the DSM 5, recognizing dominant themes in sessions, defining objectives for the client's therapeutic change process, and/or defining treatment plans). Similarly, students will begin to solidify their conceptualization of clients within their chosen theoretical framework(s).
Practicum Logistics

1. **Direct Service**: A minimum of 40 (School & Rehabilitation Counseling) and 160 (Clinical Mental Health) face-to-face client hours (as documented on time logs) must be completed by the conclusion of the practicum. These hours must include experience in both individual and group counseling work.

2. **Individual Supervision**: Weekly interaction with an average of one hour per week of individual supervision on site (with the Site Host) as well as an average of one hour per week of individual and/or triadic supervision on campus (with a program Faculty Member or a supervisor working under the supervision of a program Faculty Member), will occur regularly over a minimum of one academic term.

3. **Group Supervision**: An average of one and one half hours per week of group supervision on campus will be provided on a regular schedule over the course of the student’s practicum by a program Faculty Member or a supervisor under the supervision of a program faculty member.

4. **Variety of Activities**: The practicum student will have the opportunity to become familiar with a variety of professional activities in addition to direct client service (e.g., record keeping, supervision, information and referral, in service and staff meetings, etc.).

5. **Audio/Videotapes/Digital Voice Recordings & Observation**: The practicum student must have the opportunity to develop program-appropriate audio, digital and/or videotapes of the student’s interactions with clients for use in supervision. Additionally, opportunities for direct observation and feedback of client interventions and counseling sessions may occur.

6. **Evaluation**: The practicum student’s performance will be evaluated throughout the practicum experience, to include formal evaluations made by both the Site Host and Faculty Supervisor at the midpoint (at the 6-7 week mark) and after the student completes the practicum. Similarly, the practicum student will have the opportunity to evaluate the site, Site Supervising Counselor, and Faculty Supervisor. **Students who receive a grade less than a B on the practicum will not be allowed to enroll in the internship until a remediation plan has been completed.** Students will need to meet with their advisor and the clinical coordinator to develop the remediation plan that would include the following: (a) repeating the practicum course, (b) increased faculty supervision with direct faculty observations, and additional assignments from faculty as deemed necessary in areas where knowledge, skills, and professional attitude needs improvement. Student progress will be monitored at the midpoint and the goals identified in the plan may be modified as necessary.

The Counseling Internship

Students enrolled in the full-time internship assume more professional responsibilities than practicum students and, by the middle of the academic semester, are expected to assume the same responsibilities and tasks of a professional counselor. All degree-seeking students in all three tracks must complete a supervised internship of 600 clock hours that is initiated after successful completion of the student’s practicum (i.e. you are not permitted to “bank” hours). The internship provides an opportunity for the student to perform, under supervision, a variety of counseling activities that a professional counselor is expected to perform.

School Counseling students should complete their internship in a site different from that of their practicum, since certification for school counselors is K-12. Thus, completing field experiences at different educational levels is encouraged. Clinical Mental Health and Rehabilitation students may continue their internship at the same site as their practicum or may elect to experience a different setting. In order to provide opportunities for a breadth of clinical experiences, students are not allowed to complete their internship (or practicum) hours at their current places of employment. The only exception is if the student can provide evidence that they would be completing their hours in an area/location different from their current job-related responsibilities (e.g.,
Common Objectives for Interns

**Note: The internship is intended to build upon the student’s practicum experiences. Therefore, interns are expected to process clients at a much richer level than they did as practicum students. In supervision, they should be challenged to explore themselves and how they conceptualize particular case dynamics more so than they might have been in practicum.**

The site should provide opportunities to foster the following:

1. **Communications Skills:** Students will practice and build upon a repertoire of skills such as attending and active listening, reflecting, facilitative responding, differentiating and balancing between affect and cognitive messages, appropriate self-disclosing, confrontation, etc. These communication skills will be adapted to the cultural expectations, age level, and special needs of each client. The key difference here is that the intern should demonstrate intentionality in the implementation of communication skills.

2. **Relationship Building Skills:** Students will demonstrate the ability to establish a trusting, open, therapeutic relationship through the establishment and maintenance of the core conditions such as immediacy, congruence, unconditional positive regard and respect, effective levels of empathy, and maintaining focus on the client. Appropriate skills will be chosen to respect the cultural expectations, age level, and special needs of each client.

3. **Problem Solving Skills:** Students will develop and practice effective critical thinking, problem solving and conflict resolution skills in individual and family therapy sessions. The client's autonomy will be respected in the decision making process.

4. **Systems Approaches:** Integrate, as appropriate to site and clientele, wraparound services and discuss the implementation of wraparound services in individual and group supervision.

5. **Professional Development:** Students will demonstrate "professionalism" through proper dress, adherence to ACA’s, ASCA’s, CRCC’s Ethical Codes, and respect for the clients’ value system, a willingness to work with clients of different races, creeds, color, sex, sexual preference and an absence of prejudicial beliefs and stereotypes.

6. **Personal Growth and Development:** Students will demonstrate an ability to understand and express their personal dynamics in individual and family therapy sessions through self-disclosure, acceptance and reaction to constructive criticism, and calm and persistent courage in facing difficult or crisis situations, and awareness of expectations of self and others.

7. **Conceptualization Skills:** Students will be able to demonstrate conceptualization skills through case analysis (e.g., identifying major issues and concerns, recognizing consistent patterns of behavior, providing diagnosis using the DSM 5, recognizing dominant themes in sessions, defining objectives for the client's therapeutic change process, and defining treatment plans). Similarly, students will solidify their conceptualization of clients within their chosen theoretical framework(s).

Internship Logistics

1. **Direct Service:** A minimum of 240 hours face-to-face client hours (as documented on time logs) must be completed by the conclusion of the internship. These hours must include experience in both individual and group counseling work.

2. **Supervision:** Weekly interaction with an average of one hour per week of individual supervision on site (with the Site Host) as well as an average of one and one half hours per week of group supervision on campus (with a program Faculty Member or a supervisor working under the supervision of a program Faculty
Member), will occur regularly over a minimum of one academic term. Supervision hours with the faculty member do not count toward total hours.

3. **Variety of Activities**: The intern will have the opportunity to become familiar with a variety of professional activities in addition to direct client service (e.g., record keeping, supervision, information and referral, in service and staff meetings, etc.). Similarly, the intern will have the opportunity to gain supervised experience in the use of a variety of professional resources such as assessment instruments, technologies, program development and evaluation, professional literature, and research.

4. **Audio/Videotapes, Digital Voice Recordings & Observation**: The intern must have the opportunity to develop program-appropriate audio and/or videotapes of the intern's interactions with clients for use in supervision. Additionally, opportunities for direct observation and feedback of client interventions and counseling sessions may occur.

7. **Evaluation**: The intern's performance will be evaluated throughout the internship experience, to include formal evaluations made by the Site Host at the midpoint (at the 6-7 week mark) and after the intern completes the internship. Similarly, the intern will have the opportunity to evaluate the site, Site Supervising Counselor, and Faculty Supervisor. **Students who receive a grade less than a B on the internship will not be allowed to graduate until a remediation plan has been completed. Students will need to meet with their advisor and the clinical coordinator to develop the remediation plan that would include the following**: (a) repeating the internship course, (b) increased faculty supervision with direct faculty observations, and additional assignments from faculty as deemed necessary in areas where knowledge, skills, and professional attitude needs improvement. **Student progress will be monitored at the midpoint and the goals identified in the plan may be modified as necessary.**

**Field Experience Objectives**

There are several primary objectives that are common to all students involved in the field experiences. These include:

1. Conduct individual and group counseling to facilitate positive behavioral, attitudinal, and educational changes in clients.
2. Conduct counseling activities that facilitate the development of educational, life, and career skills in clients.
3. Conduct consultation with significant individuals in the life of the client.
4. Apply appraisal and measurement procedures including but not limited to the following: achievement, abilities and aptitude, personality, career exploration, and development; interpretation of testing results; social-emotional development, and; assessment of classroom social climates.
5. Use developmental guidance and preventive clinical mental health strategies to promote positive mental health, individual development, and prevention of adjustment problems.
6. Work collaboratively, cooperatively, and effectively with diverse individuals (e.g., special needs and at-risk-youth; multicultural and multiethnic; males and females, etc.).
7. Abide by the standards of conduct established by the school district, agency, or other mental health or educational institution, 2016 ACA Ethical Codes of the American Counseling Association (ACA), the American School Counselors Association (ASCA), the American Rehabilitation Counseling Association (ARCA), and the Florida Department of Education.
Responsibilities
The field experiences involve a collaborative effort of four individuals: The Student-Counselor, the Site Supervising Counselor, the Faculty Supervisor, and the Coordinator of Clinical Field Experiences. Each individual has their own set of responsibilities and each is held accountable to these.

Student-Counselor
1. Completes the application process for the practicum or internship by the deadline dates to the Coordinator of Clinical Supervision and Placement and the Faculty Supervisor. Applications are available from the Coordinator of Clinical Supervision and your faculty advisor. Two copies and the original are to be submitted to the Coordinator of Clinical Supervision and Placement. One copy is given to the Faculty Supervisor and one copy is retained by the student.
2. Shows evidence of having obtained professional liability insurance (for CMHC and RC students). Professional liability insurance is free to student members of ACA.
3. Completes the Field Experience Prospectus and Site Agreement with the Site Supervising Counselor (see Appendix 1A). This is a schedule that is suitable and agreeable to both parties and the placement site. The student must adhere to this agreement and advise the Site Supervising Counselor and the Faculty Supervisor/Clinical Instructor if conflicts or changes occur.
4. Completes the required number of field experience hours on site.
5. Abides by the rules, regulations, and time schedules of the placement setting.
6. Performs customary counseling functions, activities, and tasks as assigned by the Site Supervising Counselor.
7. Attends any school, district, or agency staff development conferences and meetings as directed by the Supervising Counselor or the school or agency administrator.
8. Continuously strives to improve performance at the placement site and accept feedback from supervisors and other placement personnel in a professional manner.
9. Attends all group and individual supervision meetings scheduled by the Faculty Supervisor, Site Supervising Counselor, and Clinical Coordinator.
10. Completes and submits (a) the “Counseling Clinical Hours” Time Log (see Appendix 5A) signed by the Site Supervising Counselor and Faculty Supervisor documenting the number of hours completed on site and (b) the “Field Experience Weekly Summary” Sheets (see Appendix 2E).
11. Maintains a neatly written or typed logbook that includes both the “Counseling Clinical Hours” Time Logs and the “Field Experience Weekly Summary” Sheets (see Appendix 6A). This logbook will be reviewed throughout the semester and should be brought to every individual and group supervision session, currently updated and accurate.
12. Completes any additional course requirements and documents outlined on the course syllabus and in this Field Experience Manual.
13. Acts in a professional and ethical manner at all times.

Site Supervising Counselor
1. Provides on-site supervision of the Student-Counselor, allowing for independence as the Student-Counselor improves his/her functioning as the field experience progresses. At no time should a student be left alone on site, without their site supervisor or other responsible individual.
2. Completes the Field Experience Prospectus and Site Agreement with the Student-Counselor (see Appendix 1A). This is a schedule that is suitable and agreeable to both parties.
3. Provides opportunities for the Student-Counselor to achieve the objectives and the competencies of the course by assigning appropriate duties, tasks, and responsibilities.
4. Evaluates the student's performance at the midpoint (at the 6-7 week mark) and end of the field experience. The Site Supervisor’s Evaluation of Student Performance must be mailed, or submitted to the Faculty Supervisor via the student, no later than the Monday of the middle of the semester and the Monday of the last week of the student’s field experience. These forms are located in Appendix 1C.

5. Is available to the Student-Counselor for consultation and supervision. If supervising an intern, an average of one hour of individual supervision per week must be provided and documented on the time log.

6. Possess the necessary Credentials and Experience:
   a. If supervising school counseling practicum students/interns, the supervisor must: (a) be a Certified School Counselor, (b) have completed the Florida Clinical Educator’s Training, (c) have completed a minimum of 3 years professional experience in the discipline, and; (d) have knowledge of the program’s expectations, requirements, and evaluation procedures for students.
   b. If supervising clinical mental health counseling practicum students/interns, the supervisor must: (a) possess a minimum of a master’s degree in Mental Health Counseling or a related profession (e.g., Marriage and Family Therapy, Social Work, or Psychology) with equivalent qualifications (including appropriate certifications and/or licenses); (b) have completed training in supervision, (c) have completed a minimum of 3 years professional experience in the discipline, and; (d) have knowledge of the program’s expectations, requirements, and evaluation procedures for students.
   c. If supervising rehabilitation counseling practicum students/interns, the supervisor must: (a) be a Certified Rehabilitation Counselor, or (b) have completed a minimum of 3 years professional experience in the discipline, and; (c) have knowledge of the program’s expectations, requirements, and evaluation procedures for students.

7. Attends required Orientation Meetings and/or training at FIU scheduled by the Clinical Coordinator of Field Experiences.

Faculty Supervisor

1. Coordinates the field experience to assure a successful program for the student.
2. Consults with the Site Supervising Counselor and other district or agency counseling staff as needed.
3. Provides monitoring and supervision via group supervision meetings and individual meetings with students.
4. Evaluates the student's completion of the course requirements and performance. The Faculty Supervisor/Clinical Instructor will assign a letter grade based on (a) the assessment of the student’s completion of course requirements, (b) the Site Supervisor’s Evaluation of Student Performance completed by the Site Supervising Counselor, and (c) The Evaluation of Student Performance completed by the Faculty Supervisor at both the midpoint (at the 6-7 week mark) and end of the Field Experience (see Appendix 2C).
5. Visits the placement site to consult with the Supervising Counselor or other school/agency administrators as needed, or to conduct on-site observations of students. Progress of students may also be assessed by phone or e-mail.

Coordinator of Clinical Field Experiences

1. Processes student applications for field experiences.
2. Coordinates with district personnel and the Office of Student Teaching to finalize placement sites and obtain contractual agreements for school counseling students.
3. Coordinates with agency personnel to finalize placements and obtain contractual agreements for Rehabilitation and Clinical Mental Health Counseling students.
4. Monitors the field experience process to assure quality of site placements and satisfactory experiences
for counseling students.
5. Consults with faculty as needed regarding student progress and completion of field experiences.
6. Prepares letters of verification of completion of field experiences by counseling students.
7. Coordinates the Student and Site Supervising Counselors Orientation.
8. Maintains evidence of student liability insurance and passing of State certification exams.
9. Maintains and revises the Field Experience Handbook as needed.

**Evaluation and Final Grades**

The Faculty Supervisor will assess the student with a letter grade based on (a) the completion of all course requirements (b) the *Site Supervisor’s Evaluation of Student Performance* completed by the Site Supervising Counselor at the midpoint and end of the semester, and (c) *The Evaluation of Student Performance* completed by the Faculty Supervisor. Course requirements are listed on the course syllabi and include, but may not be limited to, the following:

1. Completion of the required on-site hours.
2. Attendance at all individual and group supervision meetings scheduled by the Faculty Supervisor/Clinical Instructor and Site Supervising Counselor.
3. Completion of all required documentation, to include the time log signed by the Site Supervising Counselor and Faculty Supervisor.
4. Completion of any additional course requirements specified on the course syllabus. Other course requirements may include portfolios, case analyses, class presentations, and audiotapes or videotapes of counseling sessions. Any student who audiotapes a counseling session with an adult or child must have the signed written consent of the client. When counseling children and adolescents, signed written consent must be obtained from the parent or legal guardian of the child.
5. Uploading of all Taskstream assignments required in practicum and internship courses.
6. For school counseling students, evidence of passing score on the Florida Teacher Certification Exam (FTCE), the General Knowledge Exam (all sections, including the Essay), and the subject area exam in Guidance and Counseling.
7. Clinical Mental Health Counseling students must show evidence of passing the CPCE exam.
8. Rehabilitation Counseling students must show evidence of passing the CRC exam.
Clinical Mental Health Counseling

Vision
The FIU Counselor Education program and its faculty will strive to be leaders in the fields of counseling and counselor education by educating and training diverse students in an urban, public, research university through excellence in teaching, transformative research, and substantial service to the university, profession, and local/global community.

Mission
Our mission is to prepare competent clinical mental health counselors to significantly impact diverse individuals in a variety of settings (e.g., hospitals, mental health agencies, private practice). Our program trains counselors to meet the challenges involved in working in a fast-paced, multiethnic, multicultural, and urban environment. The second part of our mission is to provide both educational experiences that emphasize multiculturalism and social justice principles in practice and theory, as well as opportunities for professional and personal growth. Finally, it is our intent to produce ethical, self-aware, and socially responsible counselors who function to help others achieve positive personal change.

Objectives
To prepare competent and ethical mental health counseling professionals who:
1. Understand and act according to the ethical principles of the American Counseling Association (2014) and the legal guidelines of Florida Board of Clinical Social Work, Marriage & Family Therapy & Mental Health Counseling:
   - Chapter 491: Clinical, Counseling, and Psychotherapy Services
   - Chapter 456: Health Professions and Occupations: General Provisions
   - Chapter 120: Administrative Procedure Act
   - Chapter 39: Proceedings Related to Children
   - Chapter 90: Evidence Code
   - Chapter 394: Mental Health
   - Chapter 397: Substance Abuse Services
   - Chapter 415: Adult Protective Services
   - Florida Administrative Code (FAC): 64B4: Board of Clinical Social Work, Marriage & Family Therapy & Mental Health Counseling
2. Recognize the value and importance of on-going self-reflection, life-long learning, and professional development.
3. Understand, master, and apply subject matter from the following areas:
   a. Personality and counseling theories and practice
   b. Human development theories
   c. Psychopathology, diagnosis, and treatment planning
   d. Community counseling and consultation
   e. Human sexuality theory
Application Process for Field Experiences

Students must apply for field experiences by the following deadline dates:

Deadline Dates
June 15: Fall semester placement
October 1: Spring semester placement
March 1: Summer semester placement

Applications for mental health counselor field experiences are available online at http://education.fiu.edu/counselor_ed/experiences.html and from faculty advisors or the Clinical Coordinator.

The completed packet includes:
- The completed Field Experience Application
- An unofficial copy of your transcript, and
- An updated resume

Applicants must prepare and submit 3 copies of the completed, signed packet to the individuals or offices shown below by the deadline.

- Original signed application and one copy to Clinical Coordinator of Field Experiences
- One copy for the student

Students may choose the geographical area or feeder pattern in which they would prefer placement. Although we try to accommodate students as best we can, there are no guarantees that students will be assigned their choice of placements.

Practicum Hours

1. Clinical Mental Health Counseling practicum students must complete a total of 400 hours at the placement site (160 of which must be direct service hours with clients; these hours must include experience in both individual and group counseling work). Students should enroll in MHS 6800, Advanced Practicum in Counseling and Consultation.
   a. Direct Service: A minimum of 160 hours face-to-face client hours (as documented on time logs) must be completed by the conclusion of the internship. Direct client contact hours should include individual and group counseling, outreach presentations for the agency, consultation with parents or guardians.
b. **Indirect Service**: Indirect contact hours should include weekly on site group supervision and may include observation of other counseling sessions, preparing case notes, doing research to prepare for counseling sessions each week, and professional development (NOTE: anything beyond 10 hours must be approved by university supervisor).

2. All students are expected to complete their practicum or internship experience for the full duration of a semester.

**Internship Hours**

1. **Clinical Mental Health Counseling interns** must complete a total of 600 hours at the placement site (240 of which must be direct service hours with clients; these hours must include experience in both individual and group counseling work). Students should enroll in MHS 6820, Supervised Field Experience in Counseling.
   a. **Direct Service**: A minimum of 240 hours face-to-face client hours (as documented on time logs) must be completed by the conclusion of the internship. Direct client contact hours should include individual and group counseling, outreach presentations for the agency, consultation with parents or guardians.
   
   b. **Indirect Service**: Indirect contact hours should include weekly on site individual or group supervision and may include observation of other counseling sessions, preparing case notes, doing research to prepare for counseling sessions each week, and professional development (NOTE: anything beyond 10 hours must be approved by university supervisor).

2. All students are expected to complete their practicum or internship experience for the full duration of a semester.

School Counseling

Vision
The FIU Counselor Education program and its faculty will strive to be leaders in the fields of counseling and counselor education by educating and training diverse students in an urban public research university through excellence in teaching, transformative research, and substantial service to the university, profession, and local/global community.

Mission
Our mission is to prepare competent professional school counselors to significantly impact diverse individuals in a variety of settings (e.g., K-12) through the implementation of a data-driven comprehensive school counseling program. Our program trains counselors to meet the challenges involved in working in a fast-paced, multiethnic, multicultural, and urban school environment. The second part of our mission is to provide both educational experiences that emphasize multiculturalism and social justice principles in practice and theory, as well as opportunities for professional and personal growth. Finally, it is our intent to produce ethical, self-aware, and socially responsible counselors who function to help others achieve positive personal change.

Objectives
To prepare competent and ethical mental health counseling professionals who:

1. Understand and act according to the ethical principles of the American School Counselor Association (2016)
2. Recognize the value and importance of on-going self-reflection, life-long learning, and professional development.
3. Understand, master, and apply subject matter from the following areas:
   a. Personality and counseling theories and practice
   b. Human development theories
   c. Group theories and practice
   d. Measurement and appraisal/assessment
   e. Research and program evaluation
   f. Educational and career development and counseling
   g. Crisis counseling and interventions
   h. Substance abuse
   i. Legal, ethical, and professional standards
   j. Multicultural and counseling diverse populations (i.e., ethnic, racial, cultural, gender, sexual/affectional, class, age, disability, and/or spiritual/religious)
   k. School counseling coordination, functions, and activities
   l. School consultation appropriates and interventions
Application Process for Field Experiences

Students must apply for field experiences by the following deadline dates.

Deadline Dates

**APPLY (Begin process with Office of Clinical Experience no later than Feb. 1st):**

- FALL SEMESTER: Feb. 15th through March 1st
- SPRING SEMESTER: May 15th through June 1st

**SUBMIT PRACTICUM/INTERNSHIP to School Counseling Track Coordinator:**

- FALL SEMESTER: March 1st
- SPRING SEMESTER: October 15th

(*There is no summer placement for School Counselors*)

Students applying for School Counseling field experiences must visit the Office of Field Experiences (ZEB 130) to begin steps necessary for completion prior to turning in the application. This includes fingerprinting application and/or documentation regarding current employment in the school district (Miami Dade or Broward). Information can be found by accessing [http://education.fiu.edu/clinical_experiences.html](http://education.fiu.edu/clinical_experiences.html). Once requirements are completed, School Counseling students should submit applications to the School Counseling Track Coordinator (ZEB 244B) by deadlines listed above.

The placement site for School Counseling students is selected by the school district/agency in coordination with the Faculty Supervisor and/or Clinical Coordinator. Determinations about placements take into consideration student preferences, as well as input from faculty and the MDCPS Counseling Supervisor. Students may choose the geographical area or feeder pattern in which they would prefer placement. Although, we try to accommodate students as best we can, there are no guarantees that students will be assigned their choice of placements. As of Spring 2012, the Counselor Education program does not offer school or mental health site placements outside of Miami-Dade and Broward counties.

School Counseling Students: The State of Florida certification guidelines indicate that a school site placement (practicum or internship) should be in a Pk-12 grade setting (i.e., an elementary, middle, or senior high school). These schools operate during the regular, "A.M." working day. Consequently, students must make every effort to assure that their work schedules do not conflict with the hours of the practicum or internship. In most instances, the school district will not place students in schools where they are employed, and during the employee's regular, working hours. Schools do not place students in the summer.
Practicum Hours

1. **School Counseling practicum students** must complete a total of 150 hours at the placement site (40 of which must be direct service hours with clients; these hours must include experience in both individual and group counseling work). Students should enroll in SDS 6800, Advanced Practicum in Counseling and Consultation.
   a. **Direct Service**: Direct client contact hours should include individual and group counseling of students, classroom guidance presentations, and consultation services to parents and teachers.
   b. **Indirect Service**: Indirect contact hours should include weekly on site individual or group supervision and may include observation of other counseling sessions, preparing case notes, administrative tasks on behalf of students served, doing research to prepare for counseling sessions each week, and professional development (NOTE: anything beyond 10 hours must be approved by university supervisor).

2. All students are expected to complete their practicum or internship experience for the full duration of a semester.

Internship Hours

1. **School Counseling interns** must complete a total of 600 hours at the placement site (240 of which must be direct service hours with clients; these hours must include experience in both individual and group counseling work). Students should enroll in SDS 6820, Supervised Field Experience in Counseling.
   a. **Direct Service**: Direct client contact hours should include individual and group counseling of students, classroom guidance presentations, and consultation services to parents and teachers.
   b. **Indirect Service**: Indirect contact hours should include weekly on site individual or group supervision and may include observation of other counseling sessions, preparing case notes, administrative tasks on behalf of students served, doing research to prepare for counseling sessions each week, and professional development (NOTE: anything beyond 10 hours must be approved by university supervisor).

2. All students are expected to complete their practicum or internship experience for the full duration of a semester.
## School Counseling Practicum/Internship Site Checklist

### Practicum

- [ ] Can the site provide me with 150 hours of work over 10-16 weeks?
- [ ] Can the site provide me with 40 hours of direct (i.e., face-to-face) contact with clients?
- [ ] Is there a certified school counselor to provide weekly supervision?
- [ ] How many other school counseling students are at this site?
- [ ] What is the typical day like?
- [ ] Which days and hours would you most prefer your interns to work?
- [ ] What types of activities would I be expected to perform (e.g., individual counseling)?
- [ ] Does the school counselor prescribe to a specific theoretical orientation? Do they follow the ACSA model?
- [ ] Will I have office space assigned?
- [ ] What is the student population like?
- [ ] Will I have the opportunity to attend RTI, IEP, or other student service meetings and collaborate with other professionals?
- [ ] When might I be assigned my own clients?
- [ ] How many clients might I expect to have assigned to me?
- [ ] Will I be assigned at least one English-speaking client?
- [ ] Will the site allow me to audio/video record clients with consent?

### Internship

- [ ] Can the site provide me with 600 hours of work?
- [ ] Can the site provide me with 240 hours of direct (i.e., face-to-face) contact with clients?
- [ ] Is there a certified school counselor to provide weekly supervision?
- [ ] How many other school counseling students are at this site?
- [ ] What is the typical day like?
- [ ] Which days and hours would you most prefer your interns to work?
- [ ] What types of activities would I be expected to perform (e.g., individual counseling)?
- [ ] Will I have access to data to design interventions and programming?
- [ ] Does the school counselor prescribe to a specific theoretical orientation? Do they follow the ACSA model?
- [ ] Will I have office space assigned?
- [ ] What is the student population like?
- [ ] Will I have the opportunity to attend RTI, IEP, or other student service meetings and collaborate with other professionals?
- [ ] When might I be assigned my own clients?
- [ ] How many clients might I expect to have assigned to me?
- [ ] Will I be assigned at least one English-speaking client?
- [ ] Will the site allow me to audio/video record clients with consent?
Rehabilitation Counseling

Mission
Our mission is to prepare competent rehabilitation counselors to fulfill the national critical shortage of diverse and trained professionals who can provide vocational and rehabilitation counseling and services to individuals with physical or mental disabilities in a variety of settings (e.g., agencies, hospitals, treatment centers, assisted living facilities). Our program trains counselors to meet the challenges involved in working in a multiethnic, multicultural, and urban environment. The second part of our mission is to provide both educational experiences that emphasize multiculturalism in practice and theory as well as opportunities for professional and personal growth. Finally, it is our intent to produce ethical and responsible rehabilitation counselors who assist clients struggling with physical, intellectual, and emotional disabilities.

Objectives
To prepare competent and ethical rehabilitation counseling professionals who:

1. Understand and act according to the ethical principles of the Commission on Rehabilitation Counseling Certification (2017), as well as the Florida legal statutes.
2. Understand the wide variety of theories and techniques of counseling with the inherent assumptions regarding the nature of humankind and their application to individuals with disabilities.
3. Address and respond to the impact of culture and ethnicity on the practice of counseling and consultation.
4. Function as program evaluators and interpreters/consumers of empirical research in the field of counseling and rehabilitation counseling.
5. Recognize the value and importance of on-going self-analysis, self-improvement and life-long learning.
6. Understand, master, and apply subject matter from the following areas:
   a. Personality and counseling theories and practice
   b. Human development theories
   c. Psychopathology, diagnosis, and treatment planning
   d. Human sexuality theory and human sexuality issues with individuals with disabilities
   e. Group theories and practice
   f. Measurement and appraisal
   g. Research concepts and applications
   h. Career, vocational assessment, and vocational counseling
   i. Crisis counseling and interventions
   j. Legal, ethical, and professional standards
   k. Multicultural and cross-cultural counseling
   l. Medical, psychological, and social issues of individuals with disabilities
   m. Case management and service delivery in vocational rehabilitation counseling
   n. Basic principles, concepts, and procedures in public and private vocational rehabilitation counseling
   o. Transition and job placement services for individuals with disabilities
7. Are able to engage in the pursuit of new knowledge in the profession of counseling and rehabilitation counseling.
Application Process for Field Experiences

Students must apply for field experiences by the following deadline dates:

Deadline Dates

<table>
<thead>
<tr>

</table>

Applications for rehabilitation counselor field experiences are available on-line at [http://education.fiu.edu/counselor_ed/experiences.html](http://education.fiu.edu/counselor_ed/experiences.html) and from faculty advisors or the Clinical Coordinator.

The completed packet includes:

- The completed Field Experience Application
- An unofficial copy of your transcript, and
- An updated resume

Applicants must prepare and submit 3 copies of the completed, signed packet to the individuals or offices shown below by the deadline.

- Original signed application and one copy to Clinical Coordinator of Field Experiences
- One copy for the student

Students may choose the geographical area or feeder pattern in which they would prefer placement. Although, we try to accommodate students as best we can, there are no guarantees that students will be assigned their choice of placements.

Practicum Hours

1. **Rehabilitation Counseling practicum students** must complete a total of 105 hours at the placement site (40 of which must be direct service hours with clients; these hours must include experience in both individual and group counseling work). Students should enroll in RCS 6801, Advanced Practicum in Counseling and Consultation.
   a. **Direct Service:** A minimum of 40 hours face-to-face client hours (as documented on time logs) must be completed by the conclusion of the internship. Direct client contact hours should include individual and group counseling, outreach presentations for the agency, consultation with parents or guardians.
   b. **Indirect Service:** Indirect contact hours should include weekly on site group supervision and may include observation of other counseling sessions, preparing case notes, doing research to prepare for counseling sessions each week, and professional development (NOTE: anything beyond 10 hours must be approved by university supervisor).

2. All students are expected to complete their practicum or internship experience for the full duration of a semester.

Internship Hours

Field Experience Agreement

This is a cooperative agreement between Florida International University, Counselor Education Program and the agency/school named above. As a result, the Counselor Education Program agrees to: (1) acquaint students with the rules and regulations of the cooperating institution and shall hold the student responsible for complying with all rules and regulations applicable as non-resident personnel; (2) jointly plan the field experience with the institution and the student; (3) jointly review and agree upon the qualifications and credentials of the institutional supervisor who will conduct the supervision of the student; (4) make available to the institution, university resources for consultation purposes; (5) provide methods for student evaluation which are appropriate, meaningful and comprehensive; and (6) release, discharge, and hold harmless the Department/University from any and all claims existing out of any personal injuries, illnesses, disability, loss or damage of any kind sustained by the student during the period of field experience at the institution.

Additionally, the Site (i.e. agency/school) agrees to: (1) provide the student with an average of one hour per week of individual supervision on site (with the Site Host); (2) provide the student with the opportunity to become familiar with a variety of professional activities in addition to direct client service (e.g., record keeping, supervision, information and referral, in-service and staff meetings, etc.); (3) provide the opportunity to develop program-appropriate audio and/or videotapes of the student's interactions with clients for use in supervision (additionally, opportunities for direct observation and feedback of client interventions and counseling sessions may occur), and; (4) evaluate the student's performance throughout the field experience, to include a formal evaluation made by the Site Host both at the midpoint (the 6-7 week mark) and at the end of the field experience.

Field Experience Prospectus

On the next page, the student shall concisely outline the proposed field experience (see pp. 26-29 for examples). The prospectus should make clear the chief responsibilities of the student and the approximate allocation of time. You may take advantage, however, of new opportunities after consulting with your Faculty supervisor.

The Prospectus should be typed and will cover these topics:

1. Time: Indicate dates (months, year) and specific hours per week.
2. Host: Indicate names, positions, and a brief background of each person tube involved in the supervision and the approximate weekly time to be devoted to supervision.
3. Experience: List the various duties you will perform. Indicate approximate time devoted to each. An intern student should engage in all the activities performed by a full-time staff member of the agency.
4. Signatures: The prospectus must be completed, signed by the student, site host, and Faculty supervisor. The prospectus should be submitted no later than the first week in which classes are held.

Student: [Redacted]

Agency: Broward Outreach Center (BOC) Hollywood Location  Panther ID: [Redacted]

Agency Address: 2056 Scott Street Hollywood FL, 33020  Phone: 954-926-7417

Title: Mental Health Counseling Intern  Term: Fall 2018  Instructor: Dr. Maureen Kenny

Description: Performs supervised individual and group counseling, supervision (individual and group), crisis intervention, and consultation/outreach. Provides psychological evaluations, intakes and appropriate referrals. May perform other related tasks that are a part of the agency's operation such as clerical work and or trainings. Work is supervised by professional staff, and individual clinical work is supervised by Sara Smith, LMFT. This is a 4 month, 600-hour internship.

Learning Objectives: To provide an opportunity to integrate my learning experience from FIU's Counseling program and to provide an initial counseling experience. The primary goals are to learn to listen therapeutically, provide the core conditions of counseling and additional client care, to develop self-awareness related to the counseling relationship role and integrate this self-awareness and basic skills into the becoming counselor.

Time

- Hours at BOC are flexible and vary depending on intern schedule. Clinical hours are from 9am-6pm.
- Working hours can be logged as:
  - Direct Hours: Evaluations with clients, Individual Sessions, Group Therapy Sessions, Crisis Intervention Sessions, Intake/evaluations, Medication Management Session. Any other direct service/session involving client(s).
  - Indirect Hours: Group Supervision, Case discussions/analysis, Consultation, Individual Supervision, Research, Progress Notes, Clerical/Bookkeeping/Filing, any other indirect service.

Host

1. Ms. Sara Smith is a License Marriage and Family Therapist. She is the Clinical Supervisor of the Behavioral Health Program at Broward Outreach Center. She oversees all the clinical staff as well as internas.
   - Supervision:
     - Mondays for 2 hours: 9am-11am: Group Supervision
     - Individual Supervision: once a week and As Needed

2. Paulina McCall is a Licensed Mental Health Counselor. She is the Clinical Supervisor at the Pompano Beach BOC location.

3. Devora Lieberman is a Registered Mental Health Counseling Intern and the lead counselor.
Experience

- Individual Sessions: 1 hour
- Group Therapy: 1 hour
- Crisis Intervention Session: 1 hour (varies if Baker Act is needed)
- Medication Management: 1 hour
- Group Supervision: 2 hours
- Meetings: Vary (Minimum 1 hour)
- Consultation: 1 hour
- Client Orientation: Varies (once a week Minimum 1 hour)
- Individual Supervision: Varies (Minimum 1 hour)
- Clerical/Bookkeeping/Filing: Varies (Minimum 1 hour)
- Reports (Ex: End of Month Report): Varies (2 hours+)
- Evaluation/Intake: 1 hour
- Biopsychosocial: Varies (3 hours)
- Treatment Plan: Varies (Minimum 1 hour)
- Research: Varies (Minimum 1 hour)
- Other assigned clerical tasks
Field Experience Prospectus

Florida International University

**Time:** Intern will work days and times listed below for the duration of the field experience. Exceptions may occur due to federal holidays or unforeseen circumstances. On occasion, intern may gain additional hours outside of designated days and times to complete caseload documentation, conduct relevant research, or to work on special projects.

Monday thru Friday 9:00 a.m. to 5:00 p.m.

Start Date: August 20, 2018
End Date: December 7, 2018

**Host:** Milestones in Recovery
2525 Embassy Drive South
STE 10
Cooper City, FL 33026

Site Supervisor: Kristina Beaudry, LMHC, Clinical Director

One hour of individual supervision is required and daily check-ins as needed. Intern and supervisor will discuss strengths, weaknesses, and opportunities related to the intern’s individual and group sessions. Supervisor will provide appropriate direction including specific feedback regarding cultural competence, clinical knowledge and overall performance.

**Experience:** Research, develop, and lead appropriate group sessions.

Conduct one-hour clinical therapy sessions with diverse clientele.
Utilize various assessment tools to assess client's current state.

Create treatment plans including goals, objectives, and strategies and follow-up with client to ensure implementation.

Enter progress notes and group discussions in patient database.

NAME OF STUDENT: _________________________________________________________

PROGRAM: ___________________________________________________________________

SEMESTER & YEAR: _____________________________________________________________

******************************************************************************

Directions:

The Student Field Experience Evaluation provides students with the opportunity to analyze and appraise the field experience. This evaluation is utilized to assess the quality of the experience gained by the student; as well as the achievement of learning objectives identified at the beginning of the term. Completion of this evaluation is a requirement of SDS 6800, SDS 6820, MHS 6800, MHS 6800, MHS 6820, RCS 6801, RCS 6821.

1. Describe the counseling activities in which you engaged during this field experience. Include the type and number of clients counseled (individual, group, couple, family, workshop, etc...); supervisory sessions attended; staff meetings; in-service training; projects; documentation of therapeutic services; etc...(use additional paper, if needed).

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
2. List the learning objectives which you expected to achieve during this field experience and indicate the results obtained.

__________________________________________________________________________________________  
__________________________________________________________________________________________  
__________________________________________________________________________________________  

3. Were you satisfied with the achievement of stated learning objectives? Yes____  No_____  

A. If so, in what ways do you believe the setting of this field experience was conducive to achievement of these objectives?

__________________________________________________________________________________________  
__________________________________________________________________________________________  

B. If not, what problems have you identified which may have interfered with the achievement of these learning objectives?

__________________________________________________________________________________________  
__________________________________________________________________________________________  
__________________________________________________________________________________________  

4. Describe and appraise the supervisory process available (i.e., Did you work independently or with close supervision? What was the type and frequency of the supervisory sessions conducted between you and the supervisor? Do you believe there was adequate supervision?). Comment on your relationship with your immediate supervisor.

__________________________________________________________________________________________  
__________________________________________________________________________________________  
__________________________________________________________________________________________  

5. What improvements in the field placement do you believe would have enhanced the quality of this learning experience?

__________________________________________________________________________________________  
__________________________________________________________________________________________  
__________________________________________________________________________________________  

6. Do you believe the Counseling Program’s curriculum provided adequate theoretical background and preparation for the type of counseling responsibilities which were assigned during this field experience? Yes ____ No ____ If not, in what areas did you feel weak?

________________________________________________________________________________________

________________________________________________________________________________________

________________________________________________________________________________________

7. Did the placement setting:
   
   A. Accept you in the role of student counselor? Yes ___ No ___
   
   B. Offer you the opportunity to meet and interact with other professionals? Yes ___ No ___
   
   C. Provide an atmosphere conducive to cooperative working relations with others? Yes ___ No ___
   
   D. Provide adequate physical facilities conducive to learning? Yes ___ No ___
   
   E. Provide opportunities to be innovative and creative? Yes ___ No ___
   
   F. Provide the opportunity to participate in a variety of learning experiences? Yes ___ No ___

8. Was there agreement between your expectations of the field experience and the school / agency expectations? Yes ___ No ___

9. Would you recommend this field placement to be assigned to other students in the future? Yes ___ No ___

   Please comment on any item(s) checked “no.” Use an additional page if necessary.

APPENDIX 2C: SITE SUPERVISOR’S EVALUATION OF REHABILITATION COUNSELING STUDENT’S PERFORMANCE
FLORIDA INTERNATIONAL UNIVERSITY

Evaluation: ☐ Midterm  ☐ Final  Supervisor: ☐ Site Supervisor  ☐ Faculty Supervisor

Student-Counselor: ____________________________

Practicum__________ Internship__________ (Check one)

Placement Site: ________________________________________________________________

Site Supervisor: ________________________________________________________________

Site Address: __________________________________________________________________

Phone: _____________________________ Date of evaluation: __________________________

Site Supervisor Completing Form Signature: __________________________________________

*****************************************************************************
Directions: Please complete this evaluation to assess the Student-Counselor’s performance during individual supervision. This evaluation should be reviewed with the student counselor.

*****************************************************************************

Please use the following rating scale to assess the student's performance in relation to the competencies attained:

5 = Excellent    4 = Very Good    3 = Good   2 = Fair    1 = Poor

If you have not directly observed or believe you do not have sufficient information on which to base a rating, please rate "0" for not observed/cannot evaluate.

Place the number used to assess the degree of competency attained by the Student-Counselor next to the competency being evaluated.

THE STUDENT-COUNSELOR WAS ABLE TO...

1. Knowledge and Application of Counseling (CORE #C2:2)

   _____ Establish a therapeutic counseling relationship with clients.

   _____ Recognize the relationship of personality, learning, and human development and is able to apply these according to client need.

   _____ Apply counseling theories/techniques appropriate to specific situations.

   _____ Demonstrate knowledge and application of group dynamics.
Apply appropriate listening and responding skills in counseling interventions.

Plan and conduct group life skills and activities.

Select appropriate procedures to communicate information to clients.

Identify and evaluate materials and resources for implementing counseling activities.

Integrate data from a number of sources into a meaningful case study or to develop prescriptive client treatment plans.

Comments: ____________________________________________________________

________________________________________________________________________________

2. Knowledge of Measurement and Appraisal (CORE C2:5, E5)

Demonstrate knowledge and application of basic measurement concepts (validity, norming, reliability, error of measurement, standardization).

Demonstrate knowledge of administration and scoring of assessment instruments.

Identify conditions that may affect test results.

Demonstrate knowledge of appropriate procedures for collecting, storing, and safeguarding assessment instruments and data.

Develop oral and written reports that provide meaningful information based upon assessment data.

Interpret assessment data to clients, family members, and/or professional personnel in terms of the growth and development of clients.

Interpret individual student data from records and professional reports.

Comments: ____________________________________________________________

________________________________________________________________________________

Organize guidance and counseling activities related to career development.
Identify decision-making processes and how these processes can be used with clients in various aspects of career development.

Evaluate educational and career materials.

Identify appropriate materials to be used in educational and career development.

Interpret client appraisal data relevant to career development.

Assist clients in exploring career and educational options.

Demonstrate knowledge of career, vocational, educational, financial, occupational and labor market information resources, visual and print media, computer-based career information systems, and other electronic career information systems.

Understand the interrelationships among and between work, family, and other life roles and factors including the role of diversity and gender in career development.

Comments: _______________________
_____________________________________________________________________________________

4. Knowledge of Consultation, Collaboration and Coordination (CORE E2)

Communicate the needs of clients through the consultation process.

Assist individuals and groups to identify, collect, and utilize appropriate data and resources.

Demonstrate skills in consulting with school and/or agency professionals in team meetings and staffing.

Collect and synthesize client referral data.

Coordinate case management services for clients.

Comments: ____________________________________________________________________________
_____________________________________________________________________________________

5. Knowledge of Professional, Ethical, and Legal Considerations (CORE E1)

Demonstrate knowledge of ethical, legal, and professional standards.

Demonstrate knowledge of legal rights of clients with regard to counseling notes and records.

Demonstrate knowledge of use of legislation concerning clients with disabilities.
Demonstrate knowledge of laws regarding child abuse and neglect and act in accordance with such laws.

Act in a professional manner befitting a counselor.

Apply the principles of disability-related legislation including the right of persons with disabilities to independence, inclusion, choice and self-determination, access, and respect for individual differences.

Comments: ________________________________________________________________

_________________________________________________________________________

6. **Knowledge of Diversity (CORE C2:2, E3:2)**

Demonstrate knowledge and skills in working with culturally and linguistically diverse clients.

Demonstrate knowledge and skills in working with clients with special needs.

Demonstrate cultural understanding and sensitivity when working with others from diverse backgrounds.

Apply counseling interventions congruent with clients worldviews and orientations.

Comments: ________________________________________________________________

_________________________________________________________________________

7. **Knowledge of activities and programs for addressing current concerns (CORE E2:4, E2:5)**

Demonstrate knowledge of activities that teach communication skills, decision-making skills, and social skills.

Demonstrate knowledge and apply a crisis intervention plan if needed.

Demonstrate knowledge and skills in conflict mediation and resolution.

Identify self-destructive and addictive behaviors in clients and develop appropriate intervention strategies.

Comments: ________________________________________________________________

_________________________________________________________________________

8. **Knowledge of appropriate technology (CORE C2:3d)**
Demonstrate knowledge of the use of technology in student record management.

Demonstrate knowledge and use of technology for reporting and data-based management.

Comments: _______________________________________________________________________
________________________________________________________________________________

9. **Interpersonal and Supervisory Relationship**

Demonstrate ability to relate and work effectively with others involved in the client’s life (e.g., parents, and/or responsible adults, staff counselors, administrators, and other professionals).

Seek help and accept supervisory feedback without being unduly embarrassed, upset, or defensive.

Adapt to, and incorporate recommendations and changes.

Comments: _______________________________________________________________________
________________________________________________________________________________

Determine the adequacy of existing information for rehabilitation planning.

Integrate cultural, social, economic, disability-related, and environmental factors in planning.

Plan a comprehensive individual assessment (e.g., personality, interpersonal skills, intelligence, and related functional capabilities, educational achievement, work experiences, vocational aptitudes, personal and social adjustment, transferable skills, and employment opportunities).

Identify available personal and public resources with the informed choice of the individual to determine jointly, with the consumer, an appropriate rehabilitation plan. Facilitate, with the individual, the development of a client-centered rehabilitation and/or independent living plan.

Establish working relationships with other service providers involved with the individual and/or family, or client’s advocate, including provision of consumer involvement and choice.

Determine mutual responsibilities with other service providers involved with the individual, family, or client’s advocate, including consumer involvement and choice.

Develop a knowledge base of and refer individuals to other community resources when appropriate.
Assistant individuals in identifying areas of personal responsibility including potential fiscal resources to obtain need services.

Serve as a consultant to other community agencies to advocate for integration of individuals with disabilities within the community.

Market the benefits and availability of rehabilitation services to potential consumers, employers, and the general public.

Identify and plan for the appropriate use of assistive technology including computer related resources.

Utilize existing or acquired information about the existence, onset, severity, progression, and expected duration of an individual’s disability.

Determine an individual’s eligibility for rehabilitation services and/or programs including the need for services to prepare for, enter, engage in, or retain gainful employment.

Evaluate the feasibility of an individual’s rehabilitation or independent living objectives.

Review assessment information to determine appropriate services.

Assess the individual’s capabilities to make decisions.

Determine an individual’s vocational or independent living skills, aptitudes, interests, and preferences.

Assess an individual’s need for rehabilitation engineering/technologic services throughout the rehabilitation process.

Comments: ____________________________________________________________

_____________________________________________________________________

11.  Job development, placement, and job retention (CORE C2:6, E6)

Obtain and use labor market information.

Identify and contact employers to develop job opportunities.

Evaluate work activities through the use of job and task analyses.

Modify and restructure jobs and use assistive devices, where appropriate.

Consult with experts to increase the functioning of individuals.
Educate prospective employers about the benefits of hiring persons with disabilities including providing technical assistance with regard to reasonable accommodations in conformance with disability-related legislation.

Assist employers to identify, modify, and/or eliminate architectural, procedural, and/or attitudinal barriers.

Review available data to determine potential person/job match.

Teach appropriate job-seeking and job retention skills.

Provide support services to facilitate job retention.

Establish follow-up and/or follow-along procedures to maximize an individual’s independent functioning through the provision of post-employment services.

Student Signature: ____________________________ Date: ______________________

Supervisor Signature: ____________________________ Date: ______________________
Appendix 5A: Time Logs

Instruction Sheet for Completing Time Logs

Logistics

1. Make multiple copies of this blank “Counseling Clinical Hours” sheet for both Practicum and Internship.
2. Fill in your name on each sheet.
3. Fill in the “Page __ of __” field (e.g., “Page 2 of 4”) – leave the second field blank until you know how many pages you will have in total.
4. Fill in the “Dates ___ to ___” with the dates that this particular sheet covers (i.e. not the dates of your total field experience).
5. You may have more than one line filled out per day.
6. Only fill in activities that contain information that is pertinent to the supervisor who will sign off on those activities (see more info below).

Instructions for Completing “Counseling Clinical Hours” Time Sheet

1. **Begin/End Time** – Using 15 minute increments [round to the nearest clock hour (e.g., 4:00, 4:15, 4:30, etc.)], encapsulate the activities performed.
2. **Date** – Use DD/MM/YY format (it is possible to have multiple entries for one date).
3. **Activity** – Note the kind of activity(s) that you participated in for that entry.
4. **Supervisor’s Signature** – This is where your supervisor will sign to verify the activities that you’ve completed. If these activities are completed on site, the Site Supervisor must sign. On the other hand, if these activities were completed at the University, the Faculty Supervisor must sign.
5. **Individual Supervision (# hours)** – Note the amount of time spent in individual supervision.
6. **Group Supervision (# hours)** – Note the amount of time spent in group supervision.
7. **Client Contact (# hours)** – Note the amount of time spent in face-to-face client contact (e.g., individual, family, or group counseling; guidance; consultation, etc.) done on site.
8. **Non-client Contact (# hours)** – Note the amount of time spent in non-client contact on site (e.g., reading client files, completing paperwork, preparing for sessions, etc.), which will be signed by the Site Supervising Counselor.
9. **Total Clinical Hours** – Note the total amount of time spent for that particular “Begin/End Time” period.
10. **Total the number of hours** for Individual Supervision, Group Supervision, Client Contact, Non-Client Contact, and Total Clinical Hours for each page.
11. MAKE A MINIMUM OF TWO COPIES OF EACH PAGE THAT YOU SUBMIT TO THE UNIVERSITY. These sheets will be invaluable to you as you submit documentation for certification and/or licensure after graduation.

Instructions for Completing “Field Experience Weekly Summary” Sheet

1. This sheet is provided for you to write a brief reflection paper of what occurred during the course of each week of your field experience.
2. **Summary of Week’s Activities (what did you do, how often, and when)** – Briefly summarize what occurred during the week on site.
3. **Impressions or Learning Drawn from This Week’s Activities** – Based upon what happened this week (and putting it in context with what has occurred previously), what are you learning about yourself, clients, the counseling profession, your site, etc.
4. **Concerns or Questions Arising from This Week’s Activities (things to bring into supervision)** – Based upon what happened this week (and putting it in context with what has occurred previously), what are some concerns or questions that you would like addressed in your university supervision (come to supervision prepared!).

Both the “Counseling Clinical Hours” Time Log and the “Field Experience Weekly Summary” Sheet will be kept in the Student-Counselor’s Field Experience Logbook and should be brought to every individual and group supervision session, currently updated and accurate.
**COUNSELING CLINICAL HOURS**

APPENDIX 3B: FIELD EXPERIENCE WEEKLY SUMMARY

Name: ___________________________ Dates for the Week: _________________

Summary of Week’s Activities (what did you do, how often, and when):

Impressions or Learning Drawn from This Week’s Activities:

Concerns or Questions Arising from This Week’s Activities (things to bring into supervision):
Appendix 4A: Consent Forms
Parental Consent Form

This is to provide permission for my child, _____________________, to engage in audiotaped or videotaped guidance and counseling sessions with ______________________________, a Student-Counselor enrolled in the nationally accredited graduate Counselor Education program at FIU. The Student-Counselor is under the direct supervision of ____________________________, a Counselor Education faculty member at FIU, and a State of Florida certificated or licensed professional counselor. An audiotape or videotape of the counseling interview is necessary for the supervision and instruction of the Student-Counselor. The tape will be used solely for supervisory and instructional purposes, and will be erased following completion of the class for which it is required. All information disclosed in the tape will be kept strictly confidential.

However, in the event that the child’s condition indicates that there is a clear and imminent danger to him/her, or to another individual, or if the child discloses information involving a violation of federal, state, or local laws, the student counselor may be ethically and legally bound to take direct, personal action and report this information to the school or agency supervisor and/or administrator who will in turn notify the appropriate parties.

Dear Parent or Guardian:

This letter serves as notification that ________________________________ a counselor in training will be providing services to the students at ____________________________ for this semester. The student-counselor is enrolled in a nationally accredited Counselor Education program at Florida International University and is working under the direction of ____________________________, a counselor at the school. The student-counselor receives further supervision from a faculty member at the university with whom he/she meets weekly. Some sessions may be audiotaped or videotaped to assist the student-counselor in reviewing the strategies used and improving his/her skills. The tape will be used solely for supervisory and instructional purposes and will be erased following the completion of the class for which it is required. All information disclosed in the tape will be kept strictly confidential.

However, in the event that the child’s condition indicates that there is a clear and imminent danger to him/her, or to another individual, or if the child discloses information involving a violation of federal, state, or local laws, the student-counselor may be ethically and legally bound to take direct, personal action and report this information to the school or agency supervisor and or administrator who will in turn notify the appropriate parties.

If you are unwilling for your child’s session(s) with the student-counselor to be taped, please return this letter with your signature. An absence of a response will indicate permission. If you have any questions, please contact me at ___________________.

Sincerely,

__________________________
Student-Counselor
